## EXPERIENCE

**Visual Designer (working student)**
Intershop Communications AG
Apr 2016 – Jul 2016  Jena, Germany

Intershop offers solutions for E-commerce. I supported the team in the area of product management, worked with design and development team to iterate software and update website.
• Created visual design and style guide
• Developed mockups for Intershop application
• Developed wireframe and UI of Intershop backend application
• Designed and created Logo of synaptic commerce
• Created Icons for Intershop Glossary
• Created teasers for E-commerce website
• Designed and created Posters for presentation

**Usability Engineer Intern**
designaffairs GmbH
May 2015 – Sep 2015  Munich, Germany

designaffairs is a design consulting agency for user experience. I involved in various projects in the field of Consumer Electronics, Softwares, Medical Equipment, and Transportations, worked with different teams, supported to prepare several internal and external events.

**Product Design Intern**
Beijing Makerspace
Jan 2014 – Jun 2014  Beijing, China

Beijing Makerspace is a place for Hackers to build dream machines. During the Internship, I was responsible for graphical content for official accounts and assisted Workshops.
• Designed banners and graphics for official accounts of Beijing Makerspace (Sina Weibo, Wechat, Douban...)
• Created posters and prepared materials for Workshops
• Experimented with different forms and materials, made easy prototype
• Refined existing designs
